REFLECTION

1.2.1 - I learned how to write out a diagram of my program by using a flow chart.
1.2.2 - I wish I knew the types of ways to design or plan a project.
1.2.4 - Some details that might be missed are the variables needed for the flow chart.
1.2.5 - Yes, it does seem related to future topics. It will be a useful tool to know while designing a program. It's easier to write out the program once the diagram is made, it makes writing out in an organized manner.
